Profile

From concept to completion, I'm a creative professional that is passionate about creating building and design innovation solutions. My extensive knowledge in Web Design and Development allows me to create a implement successful projects for business of all sizes.

Professional Experience

DFN Freight Exchange - Front-End Developer - Waterloo, ON

As the UI/UX and Front-End Developer for a platform bridging shippers and carriers, I led the charge in crafting exceptional user experiences and robust front-end solutions using tools like Figma, SASS, Quasar, and Vue.js. My role involved meticulously designing and developing responsive interfaces, complete with custom reusable components.

Fire Lotus Creative - Web and Graphic Designer - Calgary, AB

In my position as the Website and Graphic Designer, I am incharge of designing and developing websites, the creation of logos, and engaging graphic design for a wide range of clients. By utilizing tools like Wordpress, Elementor, Mailchimp, Photoshop, and Illustrator, I guaranteed that our clients' online image was not only visually appealing but also functionally flawless.

Blue Ocean Interactive - Graphic Designer / Web Developer - Calgary, AB

I design and develop websites, create logos, graphics, animations, and handle video editing. Additionally, I manage website updates and maintenance for a diverse clientele, using tools like Adobe Creative Suite, WordPress, Joomla, Oxygen, SP Page Builder, SCSS and JS. My role combines visually captivating design with seamless functionality to enhance client success and satisfaction.

Tulu Canada - Front-End Developer Calgary, AB

As the lead developer, I custom-coded a web app for a specialized dealership social marketplace using Node.js, Express, EJS, SASS, Git, MongoDB, and REST APIs. I created responsive, cross-platform pages to facilitate seamless interactions between dealerships and customers, ensuring an exceptional user experience across all devices and screen sizes.

Vertical Motion - Front-End Developer - Calgary, AB

In my role as a front-end developer and UI/UX specialist, I crafted custom web applications for diverse clients using Node.js, Express, SASS, and Git. My responsibilities also included the maintenance and updates of WordPress sites. I took pride in designing responsive, cross-platform web app pages to ensure a seamless user experience.
